Huston Wanted Minutes Recorded as He Wrote Them.

INDULGES IN HARSH LANGUAGE

And Gets Himself Called to Order by Mayor Gilbert—A Warm Session of the Board of Health Last Night—The New Board Takes Its Seat.

The board of health convened in regular session last night at 7:45, with all members present.

The clerk read the minutes of the last meeting and Marcus Huston arose and wanted the minutes of the preceding meeting. (The meeting at which he acted as clerk.) read. Huston had a copy of his own minutes in his hand, and as Clerk Grosshans had copied them in his book, without the comments thrown in by the secretary, they didn't suit Huston. When the clerk had finished, Huston said: "Those minutes are not correct; about one third of them are left out, especially the part about the clerk. I move you the minutes be reported as they were taken. I want the minutes put in as I wrote them."

Grosshans stated that he had put in the official acts of the board, but not the comments. Huston made his motion again but got no second. Gilbert said the clerk had taken all the official acts of the board, and Clerk Grosshans said: "I want to say this now. I am willing that all official acts be recorded, but do not purpose, through a secretary's protest, that they shall be recorded with comments that were not official action. They were not official actions, but were taken only as his peculiar style dictated. The minutes of the board of health are recorded and not a report of a grievance committee of one of its members." Chambers wanted the minutes read again, and the clerk started to read them, while Huston was holding his minutes in his hand. The clerk had read but a few words when Marcus stopped him, and a war of words ensued, Huston saying: "If there is anything wrong with the minutes I want to know it. It's between Grosshans and I that this question is to be settled, and I'll be damned if I don't want it done." He then called attention to the fact that his comments had been left out, and said that was what Grosshans expunged, and it hurt him. Grosshans spoke up and said: "It ain't hurting me a bit. It's only the difference between a garbled report and a business one."

Chambers then seconded Huston's motion, probably for the purpose of getting that member to keep still. Grosshans said: "I want to say now in justice to myself, that I think it was the orders of the city engineer that the sewer matter be dropped. As regards the comments, I don't feel that I want this board of health to treat me in an unfair manner, simply because of a personal grievance."

Huston—In justice to myself I have been acting clerk of this board of health many times the past year. The paper said: 'Grosshans sat down on Huston.' It would take a regiment of Grosshans to sit down on me, by the eternal. I do a thousand times as much work for the board of health as he does. I know some things about law, if I ain't lawyer, and I'm not a pettifogger, either." Mayor Gilbert told Huston to sit down, as he would not allow any personalities, and Grosshans said he would certainly object to it, when Huston said: "Young man, you are not even a member of this health board, and have no right to talk." He was again shut up, but did not seem to know how to keep still.

Chambers—I don't know if anything was omitted. They both say they have no illwill toward each other, and as we have worked harmoniously the year through, we had better leave the matter drop.

Huston here arose and wanted to talk again, but Gilbert told him to sit down and give some of the other members a chance to talk. Goodwin said that at the following meeting the clerk exonerated himself, and the clerk said he didn't consider it an official action of the board and only official acts were put on the minutes. Goodwin said: "Let it go to a vote and vote it down, and have a committee of two examine the records and see that they harmonize." Huston was the only man that voted yes, and the Broadway member's pet motion was lost. On motion of Goodwin, a committee of two were appointed to examine the two reports, and the mayor appointed Goodwin and Kaufman.

The bills of Doctor Ogden for \$25; J. T. King, \$54.75; Tribune, \$10.45 were received and ordered paid. The health officer reported the number of births during the month, males, 15; females, 15. Deaths—males, 6; females, 3. Number of dead animals buried—dogs, 17; cats, 3. There were four cases of typhoid fever, one case of diphtheria, and two of measles during the month. Goodwin wanted to know if the health officer had conferred with street commissioner in regard to cleaning the alleys, and Doctor Ogden said he had. Goodwin introduced a resolution in regard to the matter to be handed to the board of improvement.

The committee composed of Thomas Goodwin and Huston, who visited the schools, reported as follows: "Sixth street school—Urinals in boys' department need disinfectants, and would suggest that the floor be elevated in front to provide for better drainage for obvious reasons. "Third street school—Urinals in boys' department need disinfectants. "Fourth street school—In good condition. "Grant street school—Bad condition. Vault filled to ground level. Would recommend connection with city sewers or dry closets prior to the beginning of the fall term. This vault was cleaned last spring, but the soil is such as to retain water and cause bad odors. "West End school—In good condition with the exception of urinals in boys department, which need deodorizing. Would also recommend stone or brick floor instead of the wood now in use. "East End school—In good condition. Great improvement over last year."

This was referred to the board of education. The committee composed of Huston, Chambers and Kaufman, viewed Green lane and reported it in a very bad sanitary condition. This was referred to the board of improvements. Dr. Ogden had a number of complaints about people who wouldn't sewer and said the board should make some arrangements for a place to bury dead animals, as the people who live near the place they have been burying them are kicking. King had a complaint about the ball ground, and said it should be sewered, as the water stood there for a long time. It was moved the reports be reduced to writing and handed to a committee composed of two members, to act with city engineer, and view these places. George said they had made some people sewer and they should make all. Huston said that some of the parties, of whom complaint had been made, were supposed to have been notified to sewer last fall, and Grosshans told him in plain terms that they were not supposed to be, but that they were. Mayor Gilbert said that if they'd get Huston after them they would sewer.

King reported a couple of vaults that needed cleaning, and said the only way to get it done was to charge it against the property owners. This called forth some remarks from Goodwin, who said they couldn't do anything without money, and read section 2792, Revised Statutes of Ohio. "The nuisance can be abated by notifying them to clean up, and if they don't do it, can fine \$5 a day until it is done," said Goodwin. Chambers moved that the sanitary police do the work and charge it against the property. Goodwin said he wouldn't vote for a resolution of that kind, and Grosshans said: "The time may come when I may have to defend this board in some law suits, and I want to get matters started right. The city council have passed your certain ordinances; the health officer and sanitary police need no resolutions from this board, and they ought not to come here and ask it. Do you find any law for such an action as that? I know of none. The notice should be served by the city marshal, and then if the nuisance is not abated it is the duty of your officer to swear out a warrant for his arrest. During last year the board found several nuisances, but on account of the dull times didn't want to push them. I do not think it advisable for anybody to expend money they haven't in the fund. If you do you place council in a bad way when it comes to paying bills and they have no money to meet them. There may be an injunction asked against the treasurer from collecting some of these taxes when they become due."

Goodwin again quoted statutes, and said it was the duty of the health officer to enforce the law. That the cases should never be brought up before board of health. George said the board of health

received and ordered paid. The health officer reported the number of births during the month, males, 15; females, 15. Deaths—males, 6; females, 3. Number of dead animals buried—dogs, 17; cats, 3. THROWN FROM A BUGGY

A Preacher and Family Met With an Accident.

REV. SWAN AND WIFE INJURED

At Sprucevale Yesterday Afternoon by the Franks of a Fractious Horse—Narrow Escape of an Infant—Taken to the Residence of Major Newman.

A serious accident occurred at the old stone mill, near Sprucevale, yesterday afternoon.

Rev. B. M. Swan, of New Waterford, accompanied by his wife, two children and Miss Alice Woods, of West Bethany, N. Y., a sister-in-law, were driving to this city in a surrey yesterday afternoon. When near the foot of the hill a trace became detached, and the horse being partially free from his heavy load evidently decided to liberate himself entirely. He became fractious and succeeded in upsetting the surrey and precipitating the occupants to the ground. The wheels of the vehicle passed over Mrs. Swan, breaking a rib and otherwise injuring her internally. Mr. Swan was also severely hurt, having a large cut inflicted on his head and his back badly sprained. The other occupants were uninjured, although the escape of the youngest child is miraculous. The child was underneath its mother when the wheels of the vehicle passed over her, but it is thought the soft mud, which was deep at that point, prevented it from being injured. The horse ran down the hill and up the other side, returning to a stable nearby, where it was recaptured.

Mr. and Mrs. Swan were taken to the residence of Doctor Lemmon, of Calcutta, and the physician did all in his power to relieve their sufferings. They were brought to the city this morning and are now at the residence of Major Newman, of Ravine street. There is an almost perpendicular precipice near the scene of the accident, and had the unfortunate party been precipitated over the declivity, not one of the number would have survived.

PLEAD NOT GUILTY.

Arthur Grimm Charged With Assault and Battery.

Arthur Grimm was arrested late yesterday afternoon by Officer Whan on a charge of assault and battery preferred against him by one Robert Price. One story told was that Grimm was kicking Price's dog, and that when the latter gently remonstrated with him for so doing, Grimm immediately transferred his attack from the canine to its master and pummeled him to his heart's content.

Grimm's version of the little unpleasantness slightly differs from the above story as told by Price. He says that he was not kicking the dog and that he only pushed Price to one side because he was becoming too demonstrative. Grimm also denies striking plaintiff, and plead not guilty to the charge preferred against him. He put up security for his appearance at trial and was released.

Another East End lad was arrested last night. David Speight was caught jumping on and off freight trains by Officer Meador, and was brought to the city, hall and placed in durance vile to keep company with the other juvenile offenders.

During the night the coterie of youthful prisoners in the jail made the corridors resound with ear splitting yells somewhat after the fashion of a wild Comanche Indian about to start out on the warpath.

TAKEN ILL.

John Kelly Was Very Sick Last Night From Eating Poik.

John Kelly, who resides on Calcutta road, ate greens composed of pork last night for supper, and shortly after came down town. He was standing at the corner of Broadway and Sixth streets when he became violently ill, and ran across the street to a meat market, where he vomited at an alarming rate. Dr. Norris was sent for, and when he arrived John was very weak, but the doctor gave him some medicine and worked with him for half an hour before the boy was able to be conveyed home. His illness was no doubt caused by the greens, as the boy had every symptom of being poisoned. It is safe to say that John will be careful what he eats for some time.

WANTS THE BOY.

William Bashor Is After His Son, Whom He Sent to a Home.

About one year ago Humane Agent Lloyd found a nine-year-old boy running around the streets. The boy had been abused and the agent took charge of him. The lad's father, William Bashor, came to the agent and promised to take care of him if he would allow him to do so. The child was given to him, and through the Salvation Army he was sent to a home in the east, where he remained until a few weeks since. The child's mother, from whom Bashor has been separated for about two years, went east last week and got the boy. Bashor, who is at present living in Rochester, got wind of this in some way, and yesterday telephoned Lloyd and asked him to assist in getting the child from the mother, but the humane agent is powerless to do anything unless the child is abused, and Bashor will have to enter suit, if he expects to gain possession of the child, unless some compromise can be effected.

A BAD PIECE OF WORK.

The Worst Pavement in the City Is on Walnut Street.

It is probable that within the next few weeks all the holes in the streets will be known to the board of improvements, as they will be looked up. In a conversation with a prominent contractor the other day he said: "The worst piece of pavement in East Liverpool is on Walnut street, right above Patterson's foundry. It is supposed to have been caused by having hot water running over it. The hole covers a distance of almost 100 feet, and if it is not fixed soon will require \$1,000 to repair it, where it would now only cost about \$100. I have noticed other places in the city that need repairing, but this, in my opinion, is the worst of them all."

THE PATROL

Will be a Thing of Beauty When It Is Finished.

The patrol wagon will emerge from the hands of the painter Monday attired in gaudy embellishments of various colors. The wagon has been overhauled and repaired, and when turned out it will be a thing of beauty. Those who anticipate getting on the rampage tonight may revel in the thought that they will not suffer the humiliation of a ride in the wagon. Patrolman McMillian is so jubilant over the handsome appearance of the vehicle, that as a special inducement to evil doers, he will only charge them half price for a ride for the first few days that the wagon is again in service.

WORK OUT THEIR FINES

The Mayor Thinks a Stone Break Should be Founded.

IT WOULD DECREASE OFFENDERS

His Views Placed Before President Purinton—The City Property on Market Street a Desirable Place to Locate the Works.

Mayor Gilbert is in favor of making law breakers, who have no money with which to pay their fines, break stone, and thinks that it would be a good idea if the city would take some steps toward establishing some method of this nature, whereby evil doers could be made to work out their fines. The mayor confided his views to President of Council Purinton, who agreed that the plan was feasible, and thought that the matter should be referred to the police committee for their consideration. This the mayor will do at an early date. The advantages to be derived from such a mode of punishment are manifold. The thought of being obliged to perform such hard labor would have a tendency to discourage petty acts of lawlessness, and periodical transgressors, who invariably are penniless when they face his honor, would have to wipe out the amount charged up against them by the performance of good, hard manual labor. A building could be erected on the land owned by the city on Market street, and the work of stone breaking could be carried on inside. This question has been discussed before, but the agitation was never great enough to cause the matter to assume tangible proportions.

WHEREABOUTS UNKNOWN.

Dr. W. T. Adams Is Still Missing and His Wife Is Very Ill.

A special from Akron says: "Dr. W. T. Adams, who has been missing for the past three days, has as yet given no evidence of his whereabouts. His wife is now lying very ill at the Empire Hotel from the shock of his unexplained absence. It was reported to the police today that a man answering the description of the doctor took an Akron, Bedford & Cleveland car for Cleveland Wednesday afternoon. "A number of searching parties have been organized, and the lakes and canal are being dragged. There has been no clues discovered that will lead to the whereabouts of the missing man."

We since learn that the theory of suicide is unfounded, as Druggist Will Reed met the doctor in Pittsburg on Thursday and shook hands with him. The doctor stated that business was prosperous, and that his wife was well. The probabilities are that the doctor is merely taking a pleasure jaunt.

MILK TO PEDDLE.

The Wagon Upset and Milk Cans Were Thrown Out.

Milkman John West had an upset on Avondale street early this morning. His milk wagon got caught in a rut, toppled over and sent the milk cans spinning over the ground. The driver was thrown to the ground forcibly and bruised up a great deal by the shock. The wagon was slightly damaged and about \$15 worth of milk was spilled.

To Cheapen the Rate.

The fare from Rochester to Pittsburg for the round trip has suffered another cut, and is now 55 cents. People from here will be glad to hear this, as they have been in the habit of buying a ticket from here to Rochester for \$1 for the round trip, and purchasing a ticket from there up for 90 cents, making the total fare \$1.90 for the round trip, when a ticket from here will cost \$2.35. By the new rate the round trip by Pittsburg will cost but \$1.55. It is not necessary to lose any time, as a ticket can be bought in Rochester while the train is stopped.

Should be Stopped.

The individual who has been annoying California Hollow residents in the past by the nightly discharging of fire arms, has again taken up his favorite pastime and is the source of much discomfort to many who are unable to get any sleep because of the continual fusillade of shots fired. The police should get after this fellow and make him cease this annoying practice.

Georgetown Versus Hookstown.

The Georgetown school boys celebrated the last day of the term Thursday by defeating the Hookstown team in a game of baseball. The score was Georgetown nine, Hookstown seven.

Went to Toronto.

Philip McShane, Percy Albright and John Reark are playing ball with Toronto today. The team of that place is battling with the Aces, of Steubenville.

BEAUTIFUL WARE

Is the Kind That the Buckeye Pottery Is Producing.

The new class of ware turned out at the Buckeye pottery has proved to be a pronounced success. It has been said by many, who are judges of the past, that this ware is superior in quality to any of the kind manufactured in the country. Beautiful decorations are being placed on it, and the demand for the ware is so great that the decorators have been obliged to work at nights to fill orders.

Huston Wanted Minutes Recorded as He Wrote Them.

INDULGES IN HARSH LANGUAGE

And Gets Himself Called to Order by Mayor Gilbert—A Warm Session of the Board of Health Last Night—The New Board Takes Its Seat.

The board of health convened in regular session last night at 7:45, with all members present.

The clerk read the minutes of the last meeting and Marcus Huston arose and wanted the minutes of the preceding meeting. (The meeting at which he acted as clerk.) Huston had a copy of his own minutes in his hand, and as Clerk Grosshans had copied them in his book, without the comments thrown in by the secretary protem, they didn't suit Huston. Huston—In justice to myself I have been acting clerk of this board of health many times the past year. The paper said: 'Grosshans sat down on Huston.' It would take a regiment of Grosshans to sit down on me, by the eternal. I do a thousand times as much work for the board of health as he does. I know some things about law, if I ain't lawyer, and I'm not a pettifogger, either." Mayor Gilbert told Huston to sit down, as he would not allow any personalities, and Grosshans said he would certainly object to it, when Huston said: "Young man, you are not even a member of this health board, and have no right to talk." He was again shut up, but did not seem to know how to keep still.

Chambers—I don't know if anything was omitted. They both say they have no illwill toward each other, and as we have worked harmoniously the year through, we had better leave the matter drop.

Huston here arose and wanted to talk again, but Gilbert told him to sit down and give some of the other members a chance to talk. Goodwin said that at the following meeting the clerk exonerated himself, and the clerk said he didn't consider it an official action of the board and only official acts were put on the minutes. Goodwin said: "Let it go to a vote and vote it down, and have a committee of two examine the records and see that they harmonize." Huston was the only man that voted yes, and the Broadway members' pet motion was lost. On motion of Goodwin, a committee of two were appointed to examine the two reports, and the mayor appointed Goodwin and Kauffman.

The bills of Doctor Ogden for \$25; J.

T. King, \$54.75; Tribune, \$10.45 were received and ordered paid. The health officer reported the number of births during the month, males, 15; females, 15. Deaths—males, 6; females, 3. Number of dead animals buried—dogs, 17; cats, 3. There were four cases of typhoid fever, one case of diphtheria, and two of measles during the month. Goodwin wanted to know if the health officer had conferred with street commissioner in regard to cleaning the alleys, and Doctor Ogden said he had. Goodwin introduced a resolution in regard to the matter to be handed to the board of improvement.

The committee composed of Thomas Goodwin and Huston, who visited the schools, reported as follows:

"Sixth street school—Urinals in boys' department need disinfectants, and would suggest that the floor be elevated in front to provide for better drainage for obvious reasons.

"Third street school—Urinals in boys' department need disinfectants.

"Fourth street school—In good condition.

"Grant street school—Bad condition. Vault filled to ground level. Would recommend connection with city sewers or dry closets prior to the beginning of the fall term. This vault was cleaned last spring, but the soil is such as to retain water and cause bad odors.

"West End school—In good condition with the exception of urinals in boys department, which need deodorizing. Would also recommend stone or brick floor instead of the wood now in use."

"East End school—In good condition. Great improvement over last year."

This was referred to the board of education.

The committee, composed of Huston, Chambers and Kauffman, viewed Green lane and reported it in a very bad sanitary condition. This was referred to the board of improvements.

Dr. Ogden had a number of complaints about people who wouldn't sewer and said the board should make some arrangements for a place to bury dead animals, as the people who live near the place they have been burying them are kicking. King had a complaint about the ball ground, and said it should be sewered, as the water stood there for a long time. It was moved the reports be reduced to writing and handed to a committee composed of two members, to act with city engineer, and view these places. George said they had made some people sewer and they should make all. Huston said that some of the parties, of whom complaint had been made, were supposed to have been notified to sewer last fall, and Grosshans told him in plain terms that they were not supposed to be, but that they were." Mayor Gilbert said that if they'd get Huston after them they would sewer.

King reported a couple of vaults that needed cleaning, and said the only way to get it done was to charge it against the property owners. This called forth some remarks from Goodwin, who said they couldn't do anything without money, and read section 2792, Revised Statutes of Ohio. "The nuisance can be abated by notifying them to clean up, and if they don't do it; can fine \$5 a day until it is done," said Goodwin. Chambers moved that the sanitary police do the work and charge it against the property. Goodwin said he wouldn't vote for a resolution of that kind, and Grosshans said: "The time may come when I may have to defend this board in some law suits, and I want to get matters started right. The city council have passed you certain ordinances; the health officer and sanitary police need no resolutions from this board, and they ought not to come here and ask it. Do you find any law for such an action as that? I know of none. The notice should be served by the city marshal, and then if the nuisance is not abated it is the duty of your officer to swear out a warrant for his arrest. During last year the board found several nuisances, but on account of the dull times didn't want to push them. I do not think it advisable for anybody to expend money they haven't in the fund. If you do you place council in a bad way when it comes to paying bills and they have no money to meet them. There may be an injunction asked against the treasurer from collecting some of these taxes when they become due."

Goodwin again quoted statutes, and said it was the duty of the health officer to enforce the law. That the cases should never be brought up before board of health.

George said the board of health

THROWN FROM A BUGGY

A Preacher and Family Met With an Accident.

REV. SWAN AND WIFE INJURED

At Sprucevale Yesterday Afternoon by the Franks of a Fractious Horse—Narrow Escape of an Infant—Taken to the Residence of Major Newman.

A serious accident occurred at the old stone mill, near Sprucevale, yesterday afternoon.

Rev. B. M. Swan, of New Waterford, accompanied by his wife, two children and Miss Alice Woods, of West Bethany, N. Y., a sister-in-law, were driving to this city in a surrey yesterday afternoon. When near the foot of the hill a trace became detached, and the horse being partially free from his heavy load evidently decided to liberate himself entirely. He became fractious and succeeded in upsetting the surrey and precipitating the occupants to the ground. The wheels of the vehicle passed over Mrs. Swan, breaking a rib and otherwise injuring her internally. Mr. Swan was also severely hurt, having a large cut inflicted on his head and his back badly sprained. The other occupants were uninjured, although the escape of the youngest child is miraculous. The child was underneath its mother when the wheels of the vehicle passed over her, but it is thought the soft mud, which was deep at that point, prevented it from being injured. The horse ran down the hill and up the other side, returning to a stable nearby, where it was recaptured.

Mr. and Mrs. Swan were taken to the residence of Doctor Lemmon, of Calcutta, and the physician did all in his power to relieve their sufferings. They were brought to the city this morning and are now at the residence of Major Newman, of Ravine street.

There is an almost perpendicular precipice near the scene of the accident, and had the unfortunate party been precipitated over the declivity, not one of the number would have survived.

PLEAD NOT GUILTY.

Arthur Grimm Charged With Assault and Battery.

Arthur Grimm was arrested last night by Officer Whan on a charge of assault and battery preferred against him by one Robert Price. One story told was that Grimm was kicking Price's dog, and that when the latter gently remonstrated with him for so doing, Grimm immediately transferred his attack from the canine to its master and pummeled him to his heart's content.

Grimm's version of the little unpleasantness slightly differs from the above story as told by Price. He says that he was not kicking the dog and that he only pushed Price to one side because he was becoming too demonstrative. Grimm also denies striking plaintiff, and plead not guilty to the charge preferred against him. He put up security for his appearance at trial and was released.

Another East End lad was arrested last night. David Speight was caught jumping on and off freight trains by Officer Meador, and was brought to the city, hall and placed in durance vile to keep company with the other juvenile offenders.

During the night the coterie of youthful prisoners in the jail made the corridors resound with ear splitting yells somewhat after the fashion of a wild Comanche Indian about to start out on the warpath.

TAKEN ILL.

John Kelly Was Very Sick Last Night From Eating Pork.

John Kelly, who resides on Calcutta road, ate greens composed of pork last night for supper, and shortly after came down town. He was standing at the corner of Broadway and Sixth streets when he became violently ill, and ran across the street to a meat market, where he vomited at an alarming rate. Dr. Norris was sent for, and when he arrived John was very weak, but the doctor gave him some medicine and worked with him for half an hour before the boy was able to be conveyed home. His illness was no doubt caused by the greens, as the boy had every symptom of being poisoned. It is safe to say that John will be careful what he eats for some time.

WANTS THE BOY.

William Bashor Is After His Son, Whom He Sent to a Home.

About one year ago Humane Agent Lloyd found a nine-year-old boy run-

ning around the streets. The boy had been abused and the agent took charge of him. The lad's father, William Bashor, came to the agent and promised to take care of him if he would allow him to do so. The child was given to him, and through the Salvation Army he was sent to a home in the east, where he remained until a few weeks since. The child's mother, from whom Bashor has been separated for about two years, went east last week and got the boy. Bashor, who is at present living in Rochester, got wind of this in some way, and yesterday telephoned Lloyd and asked him to assist in getting the child from the mother, but the humane agent is powerless to do anything unless the child is abused, and Bashor will have to enter suit, if he expects to gain possession of the child, unless some compromise can be effected.

A BAD PIECE OF WORK.

The Worst Pavement in the City Is on Walnut Street.

It is probable that within the next few weeks all the holes in the streets will be known to the board of improvements, as they will be looked up. In a conversation with a prominent contractor the other day he said: "The worst piece of pavement in East Liverpool is on Walnut street, right above Patterson's foundry. It is supposed to have been caused by having hot water running over it. The hole covers a distance of almost 100 feet, and if it is not fixed soon will require \$1,000 to repair it, where it would now only cost about \$100. I have noticed other places in the city that need repairing, but this, in my opinion, is the worst of them all."

THE PATROL

Will be a Thing of Beauty When It Is Finished.

The patrol wagon will emerge from the hands of the painter Monday attired in gaudy embellishments of various colors. The wagon has been overhauled and repaired, and when turned out it will be a thing of beauty.

Those who anticipate getting on the ramp tonight may revel in the thought that they will not suffer the humiliation of a ride in the wagon. Patrolman McMillan is so jubilant over the handsome appearance of the vehicle, that as a special inducement to evil doers, he will only charge them half price for a ride for the first few days that the wagon is again in service.

HOMING PIGEONS.

A Big Race to be Participated in by 45 Birds.

A consignment of 45 homing pigeons were shipped by express to Alliance this morning by bird fanciers of this city and will be liberated at that place tomorrow morning.

Seven persons have pigeons in the race, and each one is anxious that their birds shall win. This is the first of a series of races that it is proposed to hold, each succeeding one is to be over a longer course. The final race will be from Chicago to this place.

George Chadwick and Fred Hulmes for a trial race sent a number of pigeons to Rochester today where they will be liberated.

TODAY THE LAST

That You Can Get the Benefit of 10 Per Cent Discount.

Clerk Gipner, of the water works, has been kept busy for the last few days attending to patrons who are paying up the water tax in order to save the payment of the 10 per cent discount which will have to be paid after today. About one-fourth of the patrons failed to take advantage of the discount and let their bills run on until June.

If payments are not made by the middle of this month, or a good excuse for inability to pay up is not made, the water will be shut off.

BEAUTIFUL WARE

Is the Kind That the Buckeye Pottery is Producing.

The new class of ware turned out at the Buckeye pottery has proved to be a pronounced success. It has been said by many, who are judges of the ceramic product, that this ware is superior in quality to any of the kind manufactured in the country.

Beautiful decorations are being placed on it, and the demand for the ware is so great that the decorators have been obliged to work at nights to fill orders.

Went to Toronto.

Philip McShane, Percy Albright and John Reark are playing ball with Toronto today. The team of that place is battling with the Acmes, of Steubenville.

WORK OUT THEIR FINES

The Mayor Thinks a Stone Break Should be Founded.

IT WOULD DECREASE OFFENDERS

His Views Placed Before President Purinton—The City Property on Market Street a Desirable Place to Locate the Works.

Mayor Gilbert is in favor of making law breakers, who have no money with which to pay their fine, break stone, and thinks that it would be a good idea if the city would take some steps toward establishing some method of this nature, whereby evil doers could be made to work out their fines.

The mayor confided his views to President of Council Purinton, who agreed that the plan was feasible, and thought that the matter should be referred to the police committee for their consideration. This the mayor will do at an early date. The advantages to be derived from such a mode of punishment are manifold.

The thought of being obliged to perform such hard labor would have a tendency to discourage petty acts of lawlessness, and periodical transgressors, who invariably are penniless when they face his honor, would have to wipe out the amount charged up against them by the performance of good, hard manual labor. A building could be erected on the land owned by the city on Market street, and the work of stone breaking could be carried on inside. This question has been discussed before, but the agitation was never great enough to cause the matter to assume tangible proportions.

WHEREABOUTS UNKNOWN.

Dr. W. T. Adams is Still Missing and His Wife is Very Ill.

A special from Akron says: "Dr. W. T. Adams, who has been missing for the past three days, has as yet given no evidence of his whereabouts. His wife is now lying very ill at the Empire Hotel from the shock of his unexplained absence. It was reported to the police today that a man answering the description of the doctor took an Akron, Bedford & Cleveland car for Cleveland Wednesday afternoon."

"A number of searching parties have been organized, and the lakes and canal are being dragged. There has been no clues discovered that will lead to the whereabouts of the missing man."

We since learn that the theory of suicide is unfounded, as Druggist Will Reed met the doctor in Pittsburg on Thursday and shook hands with him. The doctor stated that business was prosperous, and that his wife was well. The probabilities are that the doctor is merely taking a pleasure jaunt.

MILK TO PEDDLE.

The Wagon Upset and Milk Cans Were Thrown Out.

Milkman John West had an upset on Avondale street early this morning. His milk wagon got caught in a rut, toppled over and sent the milk cans spinning over the ground.

The driver was thrown to the ground forcibly and bruised up a great deal by the shock. The wagon was slightly damaged and about \$15 worth of milk was spilled.

To Cheapen the Rate.

The fare from Rochester to Pittsburg for the round trip has suffered another cut, and is now 55 cents. People from here will be glad to hear this, as they have been in the habit of buying a ticket from here to Rochester for \$1 for the round trip, and purchasing a ticket from there up for 90 cents, making the total fare \$1.90 for the round trip. When a ticket from here will cost \$2.35. By the new rate the round trip to Pittsburg will cost but \$1.55. It is not necessary to lose any time, as a ticket can be bought in Rochester while the train is stopped.

Should be Stopped.

The individual who has been annoying California Hollow residents in the past by the nightly discharging of fire arms, has again taken up his favorite pastime and is the source of much discomfort to many who are unable to get any sleep because of the continual fusillade of shots fired. The police should get after this fellow and make him cease this annoying practice.

Georgetown Versus Hookstown.

The Georgetown school boys celebrated the last day of the term Thursday by defeating the Hookstown in a game of baseball. The score was Georgetown nine, Hookstown seven.

EAST LIVERPOOL, O., SATURDAY, MAY 2

For President,
WILLIAM MCKINLEY,
OF Ohio.

VERY NASTY.

We have a communication in this office showing up the inner life, and many of the nasty public actions, of some of the four fellows who acted as tools against the NEWS REVIEW the other night, when they displayed, as a prominent officer of the McKinley club has since said, "the characteristics of infernal fools, attempting to do injury to the club." We will hold this communication over for the present, as we have no desire to injure innocent parties who are related to the unprincipled and cowardly fellows.

BLOOMIN' BILLY.

Bloomin' Billy, the supposititious brains of the lower regions sheet, in commenting on the action of four members of the McKinley club, says "the motion to rescind the resolutions carried by a rousing majority." Ye gods and little fishes: 15 members present, 6 members voting, four in the affirmative and two in the negative, and several others asserting that they did not understand the action being taken, while one staunch old soldier, whose word is his bond, and who is admired and looked up to by every one who has the honor of his acquaintance—a life-long resident of East Liverpool, said: "I am Captain Palmer's friend. I am the friend of the NEWS REVIEW, and the resolutions commending the NEWS REVIEW were and are all right." Oh, Billy, the elder, what a Munchausen you are! Billy, the elder, you'll go to the place where all bad boys go—to the place where broken type is placed in the printing office—unless you reform: to the place where you must meet your obligations on the C. O. D. plan, Billy, the elder, and you know, by and through ripe experience, Billy the elder, that that system is an awful one. Selah.

BOARD OF HEALTH.

It is a very necessary board. It is essential to the physical well being of the citizens of East Liverpool. There should be placed on such a board a class of men possessed of average intelligence, good common sense and clear judgment—men who reflect credit upon a hustling hive of industry like that of East Liverpool. And the local board of health is, as a rule, controlled by a membership possessed of the above characteristics. The NEWS REVIEW may differ with them at times, but will endeavor, on all occasions, to do them justice. Mark M. Huston, one of the members, disgraced himself last night in open session, and brought discredit upon the other members, and he should be compelled to apologize for his nasty conduct, or pass in his resignation. He used profanity, aimed to convince his fellow members that he is a pugilist of no mean note, threatened the city solicitor and used billingsgate language to him, and acted the part of an unbalanced and irresponsible terror. He was finally called down in a peremptory manner by his honor, Mayor Gilbert, and should have been placed under arrest. Mark M. Huston should honor the board of health by passing in his resignation.

MCKINLEY'S MANHOOD.

McKinley is deserving of the great popularity he is heir to in the minds of the masses. His record is that of a clean man and an honest citizen. He has been a gallant soldier. He is very strong in debate and argument, and the country at large knows how he can hold and control an immense audience of his fellow citizens. He is a living representative of what a man should be in his family life. He is acknowledged to be a statesman and a safe man, even by his rivals and enemies. He is a lover of his country and his fellows, and the NEWS REVIEW advocates him as the very best candidate in the field, and earnestly hopes to see him nominated on the first ballot. By the way, readers of the NEWS REVIEW, this paper was the first jour-

nal in the land to fling his name to the breeze as a presidential candidate, and he has been and will be our first choice. There is just this much selfishness in this desire: It is our firm belief that, under the administration of such a man, Christian, patriot and statesman, the United States will prosper as she has never done before, and we hope to possess a share of that prosperity. And, for the further sake of the workmen and workingwomen of the nation, God speed the day of her prosperity.

TO OUR FRIENDS.

A request has been made by true Republicans—voters who vote from a standpoint of conscience and principle, and not at the order or dictation of petty bosses—that we publish the names of the parties who took illegal action against the NEWS REVIEW on Thursday night last, when the resolutions of last year, warmly commending this paper, are said to have been rescinded. There were fifteen members present at the time of the vote, and but six of the fifteen voted, four in favor of rescinding and two against. Those who voted for rescinding were Billy McCord, the elder; Billy Beardmore, the trustee officer; Danny Nellis, who wanted to be renominated for a berth on the school board, but to whom the people said "no!" Then there was No. 4, whom we know, but do not desire to sully the white paper the NEWS REVIEW is printed upon by naming him. These four and no more. And are these four fair representatives of the brains, culture, intelligence, honesty and refinement of the McKinley club? We are very glad to say that they are not fair samples, and that very many brainy and manly members of said club are utterly disgusted with the fellows who thus acted outside of the pale of good judgment and common sense. Poor fellows—they are more to be pitied than blamed, as they evidently acted consistently with their intelligence, and are probably the mere tools of other parties. No. 4 has a very unenviable record in the past, a still more unenviable record in the present, and it may become the duty of the NEWS REVIEW to expose him in some of his nasty habits, and he can rest assured that the exposure will be plain enough to satisfy even his morbid and almost uncontrollable desire to see his name in print. We may be called upon to turn on the light. We give him fair warning that he must live a better and cleaner life than he has been doing for some time past.

A LYNCHING IS FEARED.

Mansfield, O., Man Suspected of a Terrible Crime.

MANSFIELD, O., May 2.—Shortly after midnight Thursday night a young man appeared at the home of Jacob Lightcap, just east of this city, and said he was in the employ of C. J. List, a market gardener, who resides near the Lightcap residence, and that Mrs. List was sick.

He said her husband wanted one of the Lightcap girls to come and stay with his wife while he went for a doctor. Ross Lightcap, aged 25 years, arose, dressed, and started with the fellow towards the List residence. When the pair entered a ravine the fellow suddenly seized Miss Lightcap and threatened to kill her if she made any outcry. He gagged her and then snatched her. The fellow then made his escape, leaving the girl in an almost dying condition.

The matter was reported to the authorities, and Charles Markel, a young married man, was arrested for the crime. When confronted by his victim he was visibly affected, yet asserted his innocence in strong terms. The jail is being guarded, as a lynching is threatened. Markel was recently released from jail charged with robbery.

The New State Librarian.

COLUMBUS, May 2.—Prof. C. B. Galbreath has been appointed state librarian. The new librarian was born near Lisbon, Columbiana county, on Feb. 25, 1858. He is at present the president of Mt. Hope college, at Rogers. For several years he was superintendent of the East Palestine schools. During the Sherman-Foraker contest Prof. Galbreath conducted a red-hot Foraker paper, The Reveille, at East Palestine, and his appointment is largely due to the fast friendship which Senator-elect Foraker and his friends then formed.

Notified of Cockerill's Funeral.

WINCHESTER, O., May 2.—The relatives in this country of John A. Cockerill have received word from Congressman Lucien J. Fenton, who is a cousin of Mr. Cockerill, that the remains will arrive in New York from Cairo, Egypt, May 15, and that the funeral services will be held in New York. A large number of friends from this, Mr. Cockerill's native county, will attend the funeral.

Ate and Slept on the Street.

DAYTON, O., May 2.—Kate West, a negress, has been admitted to the county infirmary. She was recently ejected from her house for refusal to pay rent or move. Her household goods were placed in the street. This did not discommodate her. She continued to cook her meals and eat and sleep in the street until the police interfered.

Bar Association Dates.

COLUMBUS, May 2.—The executive committee of the State Bar association have met here and fixed the dates of the annual meeting at Put-in-Bay on July 15, 16 and 17. Hon. J. Randolph Tucker of Virginia and Hon. James Hoyt of Cleveland are among those invited to address the association.

Jumped From a Train.

COLUMBUS, May 2.—Herbert J. Noel has jumped from the St. Louis and Cincinnati train at P. O. C. & St. L. train at London, O., and was killed. He was ticketed from the west to Pittsburgh. Trainmen say it was suicide.

TILLMAN'S HOT TALK.

He Again Lets Himself Out In the Senate.

HE ATTACKS HILL AND SHERMAN

As Well as the President, Carlisle and Herbert—The Ohio Senator Pays No Attention to Him—Senator Hill Makes a Reply.

WASHINGTON, May 2.—A debate rivaling the famous Ingham-Voorhees duel has occurred in the senate between Senators Tillman and Hill.

Senator Tillman took the floor during the discussion of the naval bill and said he had found during his brief experience here that there were some strange things happening in the navy department and all other departments. Then he turned to the bond issue. He denied the right of the president to issue bonds for more current expenses.

He then denied the right of Senator Hill to call him a Populist, which Mr. Hill denied he had done.

Then again addressing Mr. Hill he declared sarcastically: "You represent the people? Yes you do. You represent the bondholders and the bankers."

After criticizing bond issues, Mr. Tillman declared: "If you force this thing much further there will be a repudiation of bonds and interest, too."

"And if you can't have that," coolly suggested Mr. Hill, "I suppose you'll have bloodshed."

"Yes, and the blood will be on your hands," responded Mr. Tillman, his words ringing through the chamber.

"If Grover Cleveland," he shouted with an emphasis that fairly made the chamber ring, "ever goes before the people again he can bear on his brow the enigma of the senator from Ohio (Mr. Sherman), who declared on the floor of this chamber that the president had simply done his duty. They are linked together, Grover Cleveland, John Sherman, John Carlisle are affiliates. The question is will the people be so damnably foolish as to trust them again?"

Proceeding he argued with vehemence that the taxes to pay for the bonds would be wrung from the hands of the toiling masses.

Mr. Tillman referred to the Ohio senator (Sherman) and his associates "in their contemptible work," and asked Sherman a question, but the Ohio senator ignored him.

Mr. Tillman next took up Mr. Herbert, who, said the senator, had been making a speech at Cleveland to some bondholders and coupon clippers and made running comments while he read the secretary's speech.

"If the people want this Cleveland-Herbert-Carlisle rule, all right, let them have it. Let them fry. But I tell you I can see the end coming," said Mr. Tillman.

Senator Tillman closed his speech by saying that if the Democrats at Chicago declared for gold he would walk out of the convention. He would join a party which might not succeed in 1896, but would be troublesome in 1900, on a platform of "America for Americans, and hell with Britain and her Tories."

Incidentally he accused the administration leaders of buying delegates at the Michigan Democratic convention, and by that means securing an endorsement of President Cleveland's administration and sound money.

Mr. Hill followed Mr. Tillman, answering the latter point by point. The New York senator referred to the coming Democratic national convention, declaring that there would be no split, but true Democracy will recognize the rule of the majority and keep the party intact, despite the threats of the South Carolina senator to leave the party. Mr. Hill spoke freely and frankly of his differences with officers of the administration, and in particular referred to the grievous mistake, as he regarded it, of Secretary Carlisle in not supporting Senator Blackburn when the latter was the nominee of a Democratic caucus.

The senator discussed international party affairs, urging harmony and the termination of venomous assaults by Democrats on a Democratic president. He spoke for two hours and was accorded the closest attention.

The galleries were crowded and the corridors were full, where thousands of people struggled for admission.

OUR NATIONAL DEBT.

The Monthly Statement Issued by the Treasury Department.

WASHINGTON, May 2.—The monthly statement of the public debt, issued by the treasury shows that on April 30 the debt, less cash in the treasury, was \$948,287,670, an increase for the month of \$5,945,417. This is accounted for in part by a decrease of \$1,551,087 in the amount of cash in the treasury, and an increase of nearly \$5,000,000 in the amount of bonds delivered under the last sale. The debt is apportioned as follows:

Interest bearing debt, \$543,312,140; debt on which interest has ceased since maturity, \$1,651,790; debt bearing no interest, \$374,414,400; total, \$1,218,378,330. This does not include \$500,594,252 in certificates and treasury notes offered by an equal amount of cash in the treasury.

The cash in the treasury is classified as follows: Gold, \$108,446,459; silver, \$310,586,116; paper, \$161,775,048; bonds, disbursing officers' balances, etc., \$7,991,981; total, \$588,899,556; against which there are demand liabilities outstanding amounting to \$598,708,896, which leaves a cash balance of \$270,190,660.

To Ignore Chinamen's Testimony.

WASHINGTON, May 2.—The secretary of the treasury has sent to the house a draft of a bill amending the Chinese exclusion laws. It provides that in cases affecting the right of Chinese to enter or remain in the United States, or where persons of Chinese descent claim the right to re-enter the United States as citizens, there shall be required the testimony of other than Chinese persons.

Gov. Morton Will Fire Four Cannon.

New York, May 2.—Governor Levi P. Morton will touch a button tonight in this city and a big cannon will be discharged in San Francisco, St. Paul, Boston and New Orleans. This will announce the opening of the electrical exposition in New York city.

DUN'S REVIEW OF TRADE.

More Business but the Gain Less Than Was Expected.

NEW YORK, May 2.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, says: "As the season advances there is more business, but advances indicate that on the whole the prevalent feeling is that the gain is less than there was reason to expect. While retail trade has been active enough to materially lessen stocks and obligations, and thus to prevent a great many threatened embarrassments, it has not yet brought enough new business to mills or factories to prevent decrease of unfilled orders and closing of some works."

Substantially the same state of things exists in all the great industries notwithstanding the strong combinations in some of inadequate consumption appears in the fact that the general range of prices for commodities, farm and mine as well as manufactured products, is nearly 1 per cent lower than it was April 1, and the lowest ever known, the decline since October, 1892, being 16.7 per cent.

Wheat has declined 4½¢ for cash, with better accounts of winter and rapid seeding of spring. With only two months of the crop year remaining there is little to encourage higher prices. Wool is weaker, the wool year closing with the greatest quantity of wool on hand ever carried at this season. April sales were smaller than in any month since June, 1894. Exports continue, both of domestic and foreign wool, and sales by manufacturers who lack orders to continue production.

Large purchases of lake ore by the principal consumers, contracts securing control of low price of ore and lower rail rates to Chicago for Connellville coke in order to compete with Pocahontas coke are the main features in the iron industry, but the revival of demand is yet deferred. Higher prices for nails have caused active buying for the week, but large consumers decline to contract as yet for bars, and the red combination has fallen through. Middlemen still sell steel billets at \$19 at Pittsburgh against \$20 asked by the pool, but the stock available is said to be only 30,000 tons. Structural prospects are good, but in other branches the demand is less active, and Bessemer pig is weak at \$13 at Pittsburgh.

The failures for the week have been 238 in the United States, against 231 last year, and 31 in Canada, against 34 last year.

STILL MCKINLEY'S FOEMEN.

Reed and Morton Leaders Say Their Men Are Yet In the Fight.

NEW YORK, May 2.—In a communication to a local newspaper on the outlook for the Republican presidential nomination the Hon. Joseph H. Manley of Augusta, Me., says:

"Any speculation to the effect that friends of Speaker Reed mean to withdraw him from the contest, or that they are discouraged, is baseless. There has never been a single instance during the campaign when we ever dreamed of such a thing. We do not now. We will not. McKinley will never be nominated. It will be the issue that will win at St. Louis. That issue will be sound money."

Ex-Senator T. C. Platt says: "I am of the opinion that McKinley has not captured enough votes to be nominated, but I am not prepared to disprove the figures of McKinley's managers just now. I expect to have something to say later on. At first glance the figures do not seem to me to have much substantial basis. But I will say, and most emphatically, too, that Morton is still in the race and to stay. He is not going to be withdrawn. And we are not 'giving up' anything."

THE LOGICAL CANDIDATE.

Hanna Says This Is Proven Regarding Major McKinley.

CLEVELAND, May 2.—Hon. M. A. Hanna, when asked for an expression in regard to the result of the Illinois state convention at Springfield, said:

"I really wish to avoid making any statement concerning the result of the convention. We have from the first made no predictions or prophecies, and have endeavored to conduct Major McKinley's campaign on clean, honest and straight business. But I will say, and most emphatically, too, that Morton is still in the race and to stay. He is not going to be withdrawn. And we are not 'giving up' anything."

Burden Jewel Robbers Remanded.

LONDON, May 2.—At the Bow Street police court William Dunlop and William Turner, the two men arrested on the charge of stealing about \$60,000 worth of jewelry from I. Townsend Burden of New York, in December last, were remanded for a week. Mrs. Burden recognized the jewels. A few were missing.

Attempted Theft During a Fire.

QUINCY, Ills., May 2.—During the progress of a fire here a bold attempt was made to steal \$5,000 worth of diamonds from a jewelry stock in the Tremont district, but the attempt miscarried and the perpetrators are under arrest.

WOMEN SHOW POWER.

Majority in Committee to Decide Their Fate.

THE M. E. GENERAL CONFERENCE.

A Wild Scene When the Woman Question Came Up In the Cleveland Meeting—Bishop Bowman Threw Up His Hands In Despair.

CLEVELAND, May 2.—A better chance for the admission of women delegates in the Methodist Episcopal general conference has developed.

Meetings of the district conferences have been held and members of the committee of 31 were appointed. Of the 14 district conferences, seven declared unconditionally for seating the women delegates and two others gave one delegate each to the same cause. This makes a vote of 17 to 11 in the committee in favor of seating the women. The committee chosen is as follows:

Rev. Dr. Hamilton of Boston, Dr. A. W. Harris of Maine state college, Rev. Dr. J. M. Buckley of New York, Dr. D. H. Carroll of Plainfield, N. J., Rev. C. J. Little of Evanston, Ills., Hon. S. M. Coon of Oswego, N. Y., Rev. Dr. T. B. Neely, Thomas H. Murray of Clearfield, Pa., Rev. Dr. A. B. Leonard of Cincinnati, Prof. R. T. Nelson of Delaware, O., Rev. J. S. Hill of Tennessee, L. J. Price of Atlanta, Prof. Samuel Dickey of Albion, Mich., Rev. Dr. H. A. Gobin of Indiana, Rev. Dr. A. G. Kynt of Philadelphia, L. M. Shaw of Dennison, Ia., Rev. Dr. J. F. Chaffee of Minnesota, W. F. T. Bushnell of Aberdeen, S. D., Rev. Dr. William Cranston of Colorado, L. M. Jones of Nebraska, Rev. J. W. Stewart of Kansas, T. J. Langston of St. Louis, Rev. Dr. J. Rothwell of New Albany, Ind., H. A. Salzer of La Crosse, Wis., Dr. G. Townsend of Texas, Rev. Dr. W. G. Emory of Little Rock, Ark., Rev. Dr. W. A. Knighton of California and Judge John R. Caples of Portland, Or.

A little flurry occurred in the convention by reason of the call on Secretary Monroe to call the roll. When the name of Lydia A. Timble was announced, a delegate was immediately on his feet and made a motion that this name be omitted until a committee determine whether her election was legal. For a moment it looked as if the fight had started. Bishop Bowman, however, refused to entertain the motion as he declared the convention was not organized. The conference decided to fill the vacancies from the reserves and to adopt the rules of the last conference.

A fight over the rites of laymen on the floor of the convention was precipitated by Mr. Daniels of India, who took the convention's breath away by presenting resolutions allowing laymen the right to choose the committees on which they will serve in the same manner, as the ministerial delegates.

Bishop Bowman ruled them out of order, still contending that the organization of the convention had not been perfected.

The actual fight for the admission of women delegates was precipitated when Mr. Planet of North Dakota moved that a committee on credentials be appointed. This brought Dr. Buckley, the old time enemy of the women, to the front, who challenged the rights of women to seats in the convention. A scene of wildest confusion followed, in which Bishop Bowman threw up his hands in despair and exclaimed:

"Are we in congress, or are we in a Methodist conference? Good Lord, brethren, can we not stop this hooting and howling. The Lord help us."

The question was finally disposed of by referring all questions of eligibility to the above committee. The committee will report Monday and in the meantime the women will be allowed seats in the convention.

The Bible being used in the devotional exercises is the one which was used by John Wesley in his study in England. This historical treasure was presented the conference some years ago.

Rev. Dr. John Lanahan of Baltimore, author of the book "The Friends of the Methodist Book Concern," is here and may ask the conference for personal vindication. He claims that 25 years ago he discovered extensive fraudulent transactions in the book concern and brought about a correction of the evils; that a strong effort was made by men high in authority in the church to keep the affair secret, and that because he would not consent to this he was persecuted and even expelled from the church, though finally reinstated.

THE PLACE OF PEARL'S DEATH.

Jackson's Attorneys Trying to Prove She Died In Cincinnati.

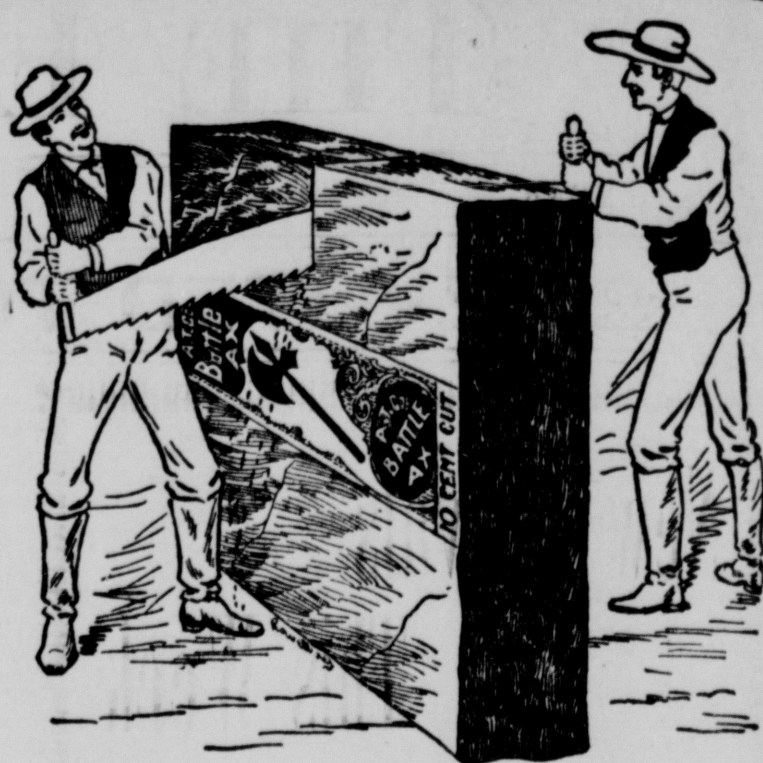

NEWPORT, Ky., May 2.—The drift of the testimony for the defense in the Scott Jackson case disclosed a purpose to show that Pearl Bryan, though beheaded in Kentucky, was first killed unintentionally by chloroform in Cincinnati, and then taken over to Kentucky and beheaded. This, if successful, would set the prisoner free, as he could not be tried for the same offense in Cincinnati. The testimony of Embalmer Abbott that he flushed the veins of Pearl Bryan's body before the autopsy and found a quart and a half of blood in them was to overthrow the expert testimony of the prosecution that she must have been killed where found.

Early this week the defense put Scott Jackson's shoes in evidence. David R. Lock, who was the fourth man to visit the scene of the murder, testified to seeing tracks from the pike to the spot where the girl lay and back by another route to the pike again. The tracks were by No. 8 or 9 shoes, perfectly new, and broad at the toe. He was shown Jackson's shoes, and said the tracks could not have been made by them.

Depositions of colored men were read to prove that George H. Jackson, the colored cab driver, was in Cincinnati Friday night, Jan. 31, and till 2 o'clock on Saturday, Feb. 1, the morning of the murder and therefore could not have driven the cab to the scene.

A Stranger of Women Caught.

SAN FRANCISCO, May 2.—John Lewis, an iron moulder, has been arrested while attempting to strangle an abandoned woman in an alley. The police believe Lewis may have strangled the other fallen women who recently were murdered in this city.

EAST LIVERPOOL, O., SATURDAY, MAY 2.

For President,
WILLIAM McKINLEY,
Of Ohio.

VERY NASTY.

We have a communication in this office showing up the inner life, and many of the nasty public actions, of some of the four fellows who acted as tools against the News Review the other night, when they displayed, as a prominent officer of the McKinley club has since said, "the characteristics of infernal fiends, attempting to do injury to the club." We will hold this communication over for the present, as we have no desire to injure innocent parties who are related to the unprincipled and cowardly fellows.

BLOOMIN' BILLY.

Bloomin' Billy, the supposititious brains of the lower regions sheet, in commenting on the action of four members of the McKinley club, says "the motion to rescind the resolutions carried by a rousing majority." Ye gods and little fishes: 15 members present, 6 members voting, four in the affirmative and two in the negative, and several others asserting that they did not understand the action being taken, while one staunch old soldier, whose word is his bond, and who is admired and looked up to by every one who has the honor of his acquaintance—a life-long resident of East Liverpool, said: "I am Captain Palmer's friend. I am the friend of the News Review, and the resolutions commending the News Review were and are all right." Oh, Billy, the elder, what a Munchausen you are! Billy, the elder, you'll go to the place where all bad boys go—to the place where broken type is placed in the printing office—unless you reform: to the place where you must meet your obligations on the C. O. D. plan, Billy, the elder, and you know, by and through ripe experience, Billy the elder, that that system is an awful one. Selah.

BOARD OF HEALTH.

It is a very necessary board. It is essential to the physical well being of the citizens of East Liverpool. There should be placed on such a board a class of men possessed of average intelligence, good common sense and clear judgment—men who reflect credit upon a hustling hive of industry like that of East Liverpool. And the local board of health is, as a rule, controlled by a membership possessed of the above characteristics. The News Review may differ with them at times, but will endeavor, on all occasions, to do them justice. Mark M. Huston, one of the members, disgraced himself last night in open session, and brought discredit upon the other members, and he should be compelled to apologize for his nasty conduct, or pass in his resignation. He used profanity, aimed to convince his fellow members that he is a pugilist of no mean note, threatened the city solicitor and used billingsgate language to him, and acted the part of an unbalanced and irresponsible terror. He was finally calmed down in a peremptory manner by his honor, Mayor Gilbert, and should have been placed under arrest. Mark M. Huston should honor the board of health by passing in his resignation.

McKINLEY'S MANHOOD.

McKinley is deserving of the great popularity he is heir to in the minds of the masses. His record is that of a clean man and an honest citizen. He has been a gallant soldier. He is very strong in debate and argument, and the country at large knows how he can hold and control an immense audience of his fellow citizens. He is a living representative of what a man should be in his family life. He is acknowledged to be a statesman and a safe man, even by his rivals and enemies. He is a lover of his country and his fellows, and the News Review advocates him as the very best candidate in the field, and earnestly hopes to see him nominated on the first ballot. By the way, readers of the News Review, this paper was the first jour-

nal in the land to fling his name to the breeze as a presidential candidate, and he has been and will be our first choice. There is just this much selfishness in this desire: It is our firm belief that, under the administration of such a man, Christian, patriot and statesman, the United States will prosper as she has never done before, and we hope to possess a share of that prosperity. And, for the further sake of the workmen and workingwomen of the nation, God speed the day of her prosperity.

TO OUR FRIENDS.

A request has been made by true Republicans—voters who vote from a standpoint of conscience and principle, and not at the order or dictation of petty bosses—that we publish the names of the parties who took illegal action against the News Review on Thursday night last, when the resolutions of last year, warmly commending this paper, are said to have been rescinded. There were fifteen members present at the time of the vote, and but six of the fifteen voted, four in favor of rescinding and two against. Those who voted for rescinding were Billy McCord, the elder; Billy Beardmore, the truant officer; Danny Nellis, who wanted to be renominated for a berth on the school board, but to whom the people said "no!" Then there was No. 4, whom we know, but do not desire to sully the white paper the News Review is printed upon by naming him. These four and no more. And are these four fair representatives of the brains, culture, intelligence, honesty and refinement of the McKinley club? We are very glad to say that they are not fair samples, and that very many brainy and manly members of said club are utterly disgusted with the fellows who thus acted outside of the pale of good judgment and common sense. Poor fellows—they are more to be pitied than blamed, as they evidently acted consistently with their intelligence, and are probably the mere tools of other parties. No. 4 has a very unenviable record in the past, a still more unenviable record in the present, and it may become the duty of the News Review to expose him in some of his nasty habits, and he can rest assured that the exposure will be plain enough to satisfy even his morbid and almost uncontrollable desire to see his name in print. We may be called upon to turn on the light. We give him fair warning that he must live a better and cleaner life than he has been doing for some time past.

A LYNCHING IS FEARED.

Mansfield, O., Man Suspected of a Terrible Crime.

MANSFIELD, O., May 2.—Shortly after midnight Thursday night a young man appeared at the home of Jacob Lightcap, just east of this city, and said he was in the employ of C. J. List, a market gardener, who resides near the Lightcap residence, and that Mrs. List was sick.

He said her husband wanted one of the Lightcap girls to come and stay with his wife while he went for a doctor. Rose Lightcap, aged 25 years, arose, dressed, and started with the fellow towards the List residence. When the pair entered a ravine the fellow suddenly seized Miss Lightcap and threatened to kill her if she made any outcry. He gagged her and then assaulted her. The fellow then made his escape, leaving the girl in an almost dying condition.

The New State Librarian.

COLUMBUS, May 2.—Prof. C. B. Galbreath has been appointed state librarian. The new librarian was born near Lisbon, Columbiana county, on Feb. 25, 1858. He is at present the president of Mt. Hope college, at Rogers. For several years he was superintendent of the East Palestine schools. During the Sherman-Foraker contest Prof. Galbreath conducted a red-hot Foraker paper, The Reveille, at East Palestine, and his appointment is largely due to the fast friendship which Senator-elect Foraker and his friends then formed.

Notified of Cockerill's Funeral.

WINCHESTER, O., May 2.—The relatives in this country of John A. Cockerill have received word from Congressman Lucien J. Fenton, who is a cousin of Mr. Cockerill, that the remains will arrive in New York from Cairo, Egypt, May 15, and that the funeral services will be held in New York. A large number of friends from this, Mr. Cockerill's native county, will attend the funeral.

Ate and Slept on the Street.

DAYTON, O., May 2.—Kate West, a negress, has been admitted to the county infirmary. She was recently ejected from her house for refusal to pay rent or move. Her household goods were placed in the street. This did not discommodate her. She continued to cook her meals and eat and sleep in the street until the police interfered.

Bar Association Dates.

COLUMBUS, May 2.—The executive committee of the State Bar association have met here and fixed the date of the annual meeting at Put-in-Bay on July 15, 16 and 17. Hon. J. Randolph Tucker of Virginia and Hon. James Hoyt of Cleveland are among those invited to address the association.

Jumped From a Train.

COLUMBUS, May 2.—Herbert J. Noel has jumped from the St. Louis and New York limited P. O. C. & St. L. train at London, O., and was killed. He was ticketed from the west to Pittsburgh. Trainmen say it was suicide.

TILLMAN'S HOT TALK.

He Again Lets Himself Out In the Senate.

HE ATTACKS HILL AND SHERMAN

As Well as the President, Carlisle and Herbert—The Ohio Senator Pays No Attention to Him—Senator Hill Makes a Reply.

WASHINGTON, May 2.—A debate rivaling the famous Ingrall-Voorhees duel has occurred in the senate between Senators Tillman and Hill.

Senator Tillman took the floor during the discussion of the naval bill and said he had found during his brief experience here that there were some strange things happening in the navy department and all other departments. Then he turned to the bond issue. He denied the right of the president to issue bonds for more current expenses.

He then denied the right of Senator Hill to call him a Populist, which Mr. Hill denied he had done.

Then again addressing Mr. Hill he declared sarcastically: "You represent the people? Yes you do. You represent the bondholders and the bankers."

After criticizing bond issues, Mr. Tillman declared: "If you force this thing much further there will be a repudiation of bonds and interest, too."

"And if you can't have that," he coolly suggested Mr. Hill, "I suppose you'll have bloodshed."

"Yes, and the blood will be on your hands," responded Mr. Tillman, his words ringing through the chamber.

"If Grover Cleveland," he shouted with an emphasis that fairly made the chamber ring, "ever goes before the people again he can beat on his brow the enigma of the senator from Ohio (Mr. Sherman), who declared on the floor of this chamber that the president had simply done his duty. They are linked together, Grover Cleveland, John Sherman, John Carlisle are affiliates. The question is will the people be so damnably foolish as to trust them again?"

Proceeding he argued with vehemence that the taxes to pay for the bonds would be wrung from the hands of the toiling masses.

Mr. Tillman referred to the Ohio senator (Sherman) and his associates "in their contemptible work," and asked Sherman a question, but the Ohio senator ignored him.

Mr. Tillman next took up Mr. Herbert, who, said the senator, had been making a speech at Cleveland to some bondholders and coupon clippers and made running comments while he read the secretary's speech.

If the people want this Cleveland-Herbert-Carlisle rule, all right, let them have it. Let them fry. But I tell you I can see the end coming," said Mr. Tillman.

Senator Tillman closed his speech by saying that if the Democrats at Chicago declared for gold he would walk out of the convention. He would join a party which might not succeed in 1896, but would be troublesome in 1900, on a platform of "America, for Americans, and to hell with Britain and her tories."

Incidentally he accused the administration leaders of buying delegates at the Michigan Democratic convention, and by that means securing an endorsement of President Cleveland's administration and sound money.

Mr. Hill followed Mr. Tillman, answering the latter point by point. The New York senator referred to the coming Democratic national convention, declaring that there would be no split, but true Democracy will recognize the rule of the majority and keep the party intact, despite the threats of the South Carolina senator to leave the party. Mr. Hill spoke freely and frankly of his differences with officers of the administration, and in particular referred to the grievous mistake, as he regarded it, of Secretary Carlisle in not supporting Senator Blackburn when the latter was the nominee of a Democratic caucus.

The senator discussed international party affairs, urging harmony and the termination of venomous assaults by Democrats on a Democratic president. He spoke for two hours and was accorded the closest attention.

The galleries were crowded and the corridors were full, where thousands of people struggled for admission.

OUR NATIONAL DEBT.

The Monthly Statement Issued by the Treasury Department.

WASHINGTON, May 2.—The monthly statement of the public debt, issued by the treasury shows that on April 30 the debt, less cash in the treasury, was \$948,287,670, an increase for the month of \$5,945,417. This is accounted for in part by a decrease of \$1,551,087 in the amount of cash in the treasury, and an increase of nearly \$5,000,000 in the amount of bonds delivered under the last sale. The debt is recapitulated as follows:

Interest bearing debt, \$842,312,140; debt on which interest has ceased since maturity, \$1,651,790; debt bearing no interest, \$574,414,400; total, \$1,218,518,330. This does not include \$560,594,352 in certificates and treasury notes offset by an equal amount of cash in the treasury.

The cash in the treasury is classified as follows: Gold, \$168,446,459; silver, \$510,586,116; paper, \$161,775,045; bonds, disbursing officers' balances, etc., \$57,991,981; total, \$898,899,556; against which there are demand liabilities outstanding amounting to \$598,708,896, which leaves a cash balance of \$270,190,660.

To Ignore Chinamen's Testimony.

WASHINGTON, May 2.—The secretary of the treasury has sent to the house a draft of a bill amending the Chinese exclusion laws. It provides that in case affecting the right of Chinese to enter or remain in the United States, or where persons of Chinese descent claim the right to re-enter the United States as citizens, there shall be required the testimony of other than Chinese persons.

Gov. Morton Will Fire Four Cannon.

NEW YORK, May 2.—Governor Levi P. Morton will touch a button tonight in this city and a big cannon will be discharged in San Francisco, St. Paul, Boston and New Orleans. This will announce the opening of the electrical exposition in New York city.

DUN'S REVIEW OF TRADE.

More Business But the Gain Less Than Was Expected.

NEW YORK, May 2.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, says: As the season advances there is more business, but advances indicate that on the whole the prevalent feeling is that the gain is less than there was reason to expect. While retail trade has been active enough to materially lessen stocks and obligations, and thus to prevent a great many threatening embarrassments, it has not yet brought enough new business to mills or factories to prevent decrease of unfilled orders and closing of some works.

Substantially the same state of things exists in all the great industries notwithstanding the strong combinations in some, and evidence of inadequate consumption appears in the fact that the general range of prices for commodities, farm and mine as well as manufactured products, is nearly 1 per cent lower than it was April 1, and the lowest ever known, the decline since October, 1892, being 16.7 per cent.

Wheat has declined 4½¢ for cash, with better accounts of winter and rapid seeding of spring. With only two months of the crop year remaining there is little to encourage higher prices. Wool is weaker, the wool year closing with the greatest quantity of wool on hand ever carried at this season. April sales were smaller than in any month since June, 1894. Exports continue, both of domestic and foreign wool, and sales by manufacturers who lack orders to continue production.

Large purchases of lake ore by the principal consumers, contracts securing control of low prosperous ore and lower rail rates to Chicago for Connellsville coke in order to compete with Peabody's coke are the main features in the iron industry, but the revival of demand is yet deferred. Higher prices for nails have caused active buying for the week, but large consumers decline to contract as yet for bars, and the rod combination has fallen through. Middlemen still sell steel billets at \$19 at Pittsburgh against \$20 asked by the pool, but the stock available is said to be only 30,000 tons. Structural prospects are good, but in other branches the demand is less active, and a Bessemer pig is weak at \$13 at Pittsburgh.

The failures for the week have been 238 in the United States, against 231 last year, and 31 in Canada, against 34 last year.

STILL McKINLEY'S FOEMEN.

Reed and Morton Leaders Say Their Men Are Yet in the Fight.

NEW YORK, May 2.—In a communication to a local newspaper on the outlook for the Republican presidential nomination the Hon. Joseph H. Manley of Augusta, Me., says:

"Any speculation to the effect that friends of Speaker Reed mean to withdraw him from the contest, or that they are discouraged, is baseless. There has never been a single instance during the campaign when we ever dreamed of such a thing. We do not now. We will not. McKinley will never be nominated. It will be the issue that will win at St. Louis. That issue will be sound money."

Ex-Senator T. C. Platt says: "I am of the opinion that McKinley has not captured enough votes to be nominated, but I am not prepared to disprove the figures of McKinley's managers just now. I expect to have something to say later on. At first glance the figures do not seem to me to have much substantial basis. But, I will say, and most emphatically, too, that Morton is still in the race and to stay. He is not going to be withdrawn. And we are not 'giving up' anything."

THE LOGICAL CANDIDATE.

Hanna Says This Is Proven Regarding Major McKinley.

CLEVELAND, May 2.—Hon. M. A. Hanna, when asked for an expression in regard to the result of the Illinois state convention at Springfield, said:

"I really wish to avoid making any statement concerning the result of the convention. We have from the first made no predictions or prophecies, and have endeavored to conduct Major McKinley's campaign on clean, honest and upright principles. We have sincerely believed from the outset that he was the logical candidate for the presidency and subsequent events have substantiated this opinion."

Salzer of Lacrosse, Wis., Dr. G. Townsend of Texas, Rev. Dr. W. G. Emory of Little Rock, Ark., Rev. Dr. W. A. Knighton of California and Judge John K. Caples of Portland, Ore.

A little flurry occurred in the convention by reason of the call on Secretary Monroe to call the roll. When the name of Lydia A. Timble was announced, a delegate was immediately on his feet and made a motion that this name be omitted until a committee determine whether her election was legal. For a moment it looked as if the fight had started. Bishop Bowman, however, refused to entertain the motion as he declared the convention was not organized. The conference decided to fill the vacancies from the reserves and to adopt the rules of the last conference.

A fight over the rites of laymen on the floor of the convention was precipitated by Mr. Daniels of India, who took the convention's breath away by presenting resolutions allowing laymen the right to choose the committees on which they will serve in the same manner, as the ministerial delegates.

Bishop Bowman ruled them out of order, still contending that the organization of the convention had not been perfected.

The actual fight for the admission of women delegates was precipitated when Mr. Planet of North Dakota moved that a committee on credentials be appointed. This brought Dr. Buckley, the old time enemy of the women, to the front, who challenged the rights of women to seats in the convention. A scene of wildest confusion followed, in which Bishop Bowman threw up his hands in despair and exclaimed: "Are we in congress, or are we in a Methodist conference? Good Lord, brethren, can we not stop this hooting and howling. The Lord help us."

The question was finally disposed of by referring all questions of eligibility to the above committee. The committee will report Monday and in the meantime the women will be allowed seats in the convention.

The Bible being used in the devotional exercises is the one which was used by John Wesley in his study in England. This historical treasure was presented to the conference some years ago.

Rev. Dr. John Lannahan of Baltimore, author of the book "The Friends of the Methodist Book Concern," is here and may ask the conference for personal vindication. He claims that 25 years ago he discovered extensive fraudulent transactions in the book concern and brought about a correction of the evils; that a strong effort was made by men high in authority in the church to keep the affair secret, and that because he would not consent to this he was persecuted and even expelled from the church, though finally reinstated.

THE PLACE OF PEARL'S DEATH.

Jackson's Attorneys Trying to Prove She Died in Cincinnati.

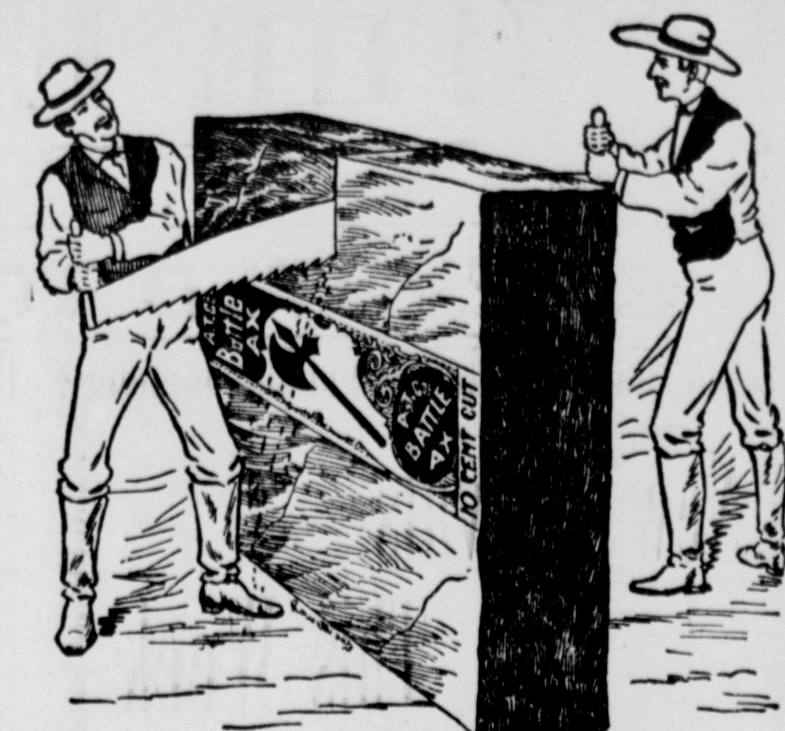

NEWPORT, Ky., May 2.—The drift of the testimony for the defense in the Scott Jackson case disclosed a purpose to show that Pearl Bryan, though beheaded in Kentucky, was first killed unintentionally by chloroform in Cincinnati, and then taken over to Kentucky and beheaded. This, if successful, would set the prisoner free, as he could not be tried for the same offense in Cincinnati. The testimony of Embalmer Abbott that he flushed the veins of Pearl Bryan's body before the autopsy and found a quart and a half of blood in them was to overthrow the expert testimony of the prosecution that she must have been killed where found.

Early this week the defense put Scott Jackson's shoes in evidence. David R. Lock, who was the fourth man to visit the scene of the murder, testified to seeing tracks from the pike to the spot where the girl lay and back by another route to the pike again. The tracks were by No. 8 or 9 shoes, perfectly new, and broad at the toe. He was shown Jackson's shoes, and said the tracks could not have been made by them.

Depositions of colored men were read to prove that George H. Jackson, the colored cab driver, was in Cincinnati Friday night, Jan. 31, and till 2 o'clock on Saturday, Feb. 1, the morning of the murder and therefore could not have driven the cab to the scene.

A Stranger of Women Caught.

SAN FRANCISCO, May 2.—John Lewis, an iron moulder, has been arrested while attempting to strangle an abandoned woman in an alley. The police believe Lewis may have strangled the other fallen women who recently were murdered in this city.

THE ASSASSIN A BABI.

Persia's Hated Sect Revenges Early Persecution.

THE RULER KILLED AT DEVOTION.

His Murderer Was Disguised as a Woman—The Shah Shot In the Region of the Heart—Expired After Reaching His Palace.

LONDON, May 2.—A dispatch from Tehran to The Times regarding the situation in Persia incident upon the assassination of the Shah says: "Much discontent has existed for some time, through the dearth of provisions, partly caused by the excessive issue of copper coins. The assassin's name is Mollah Reza, a member of the Babi sect, whose crusade against the corruption of the public and private manners in Persia was so popular as to become a menace to the government."

"The chief apprehensions that now arise," says The Times, "are lest the new Shah's eldest brother, Zil Es Sultan, should attempt to dispute the ascension. The late Shah is succeeded by his second son, Muzaffir Ed Din. Zil Es Sultan is governor of Isfahan, and was for a long time the virtual ruler of Southern Persia, till the late Shah, in 1890, greatly reduced his power and disbanded his regiment."

The Shah was visiting a shrine near the city for devotion. Upon entering the inner sanctuary he was shot by an assassin disguised as a woman, the bullet entering the region of the heart. Immediately after the Shah was shot he was carried to his carriage and in it conveyed to the palace. There he was attended by Dr. Tholozan, his chief physician, and other physicians who were hastily sent for. But, in spite of their combined efforts his majesty expired soon after his arrival at the palace.

The heir apparent, Muzaffir-Ed-Din, was immediately advised of the assassination of his father and will leave Tabriz, where he was sojourning, for Tehran as soon as possible.

The assassin is under arrest.

QUIET MAY DAY IN EUROPE.

Riots Occurred Only at Vienna and Bilbao.

LONDON, May 2.—Advices received here from cities and towns throughout the continent of Europe show that there has been small socialist and labor meetings incident to May day, but there has been little suspension of work, in spite of the apprehensions which have been felt that the day would be characterized by widespread labor disturbances. There has been no disorder whatever, except at Vienna and Bilbao.

In Vienna all work was entirely suspended, and meetings of laborers were held. Over 90,000 people proceeded along the Ringstrasse to the Prater. A riot occurred in a restaurant and the place was badly wrecked. Soldiers and police made a charge. Numbers of persons, including women and children, were seriously wounded by sabers, and the hand of one person was cut off. Many of the police were also badly injured. Fifty arrests were made and 90 persons injured were taken to the hospital, while large numbers of those who were hurt were carried to their homes by friends.

At Bilbao, in Spain, 1,500 miners from Gallarta and Arboleda districts struck and became riotous, so that the gendarmes were obliged to fire upon them to suppress the disturbance.

Iron Ore Miners Strike.

PORT HENRY, N. Y., May 2.—The employees of the Witherbee, Sherman & Co. and Port Henry Iron Ore company, went out on May day. Over 700 men have been affected. The Lake Champlain and Moriah railroad has been tied up as a result.

Struck on May Day.

CHICAGO, May 2.—About 300 structural ironworkers, employed principally on the various elevated roads in course of construction, struck on May day for an increase of wages. It is feared a general strike of the building trades will follow.

Stopped Building in Toronto.

TORONTO, May 2.—The builders' laborers to the number of 400 went out on a strike on May day because the bosses would not agree to their demand for an increase from 18 to 21 cents an hour. The whole building trade is at a standstill.

Gresham Interred at Arlington.

WASHINGTON, May 2.—The remains of the late secretary, Walter G. Gresham, arrived here this afternoon from Chicago accompanied by Mrs. Gresham, Otto Gresham and friends. The burial took place at Arlington and was attended by President Cleveland and members of his cabinet.

LOCAL BREVITIES.

Today is big pay with the uptown potteries.

The paper counter for the circus, J. Weinberg, is in the city today.

Engineer George is making a few surveys on Calcutta road today.

Seven more workmen to be employed on the bridge arrived here last night.

Three drunken men on Franklin street last night made things merry for some time.

The city hall has been overhauled and thoroughly cleaned during the past few days.

King Harker is confined to his home near the power house with an attack of rheumatism.

James Walters has purchased a fast horse from Niles parties. The trotter has a record of 2:28.

Daniel Kelley had an upset on the Lisbon road Thursday afternoon, and was bruised up considerably.

Peter Conne is making preparations to remove to Leetonia. He will ship his household effects to that place next week.

The dredge boat has moved to the opposite side of the river, and has commenced operations for the last pier of the bridge.

The towboat John T. Risher passed down this morning, with the largest tow that has passed this point for some time.

Will Taylor and wife, accompanied by John McDonald, left yesterday afternoon for a short visit to Mt. Clemens, Mich.

The saloonists have caught the baseball fever, and will meet next Tuesday night to pick a team to play their Wellsville brethren.

The Bedford passed down last night with a good cargo of freight. The Lorena and Virginia are due down from Pittsburgh this evening.

J. Williamson, formerly engaged in the shoe business here, has embarked in the same business at Springfield. The family moved from Columbus to that city Monday.

Mrs. Thomas Collins, of Fifth street, who is undergoing treatment in a Pittsburgh hospital, is recovering rapidly, and expects to be well enough to return home some time next week.

John Kennedy ran into the telephone pole at the Hotel Grand last night while riding a bicycle. The machine was pretty generally used up, but John was not hurt beyond a few bruises.

Under the hoods of the street lamps sparrows build their nests, and as this is the period of hatching their young, almost every nest contains several eggs. The upper part of the lamps afford protection to the birds against wind and rain.

Street Commissioner Finley and his men have just finished the cleaning up of alleys and have again turned their attention to the improvement of the condition of the streets. The new commissioner evidently is a good man for the position.

The residents living near Kalston's crossing wish to call the attention of the sanitary police to the presence of a dead dog that has been lying close to the watering trough on the East End road. The stench arising from the carcass of the dead animal is almost unbearable.

The mayor has had a neat little secretary made that is divided off into pigeon hole apartments, as receptacles for legal documents, papers, etc. The secretary will be placed on the desk at city hall, and will be for the exclusive use of his honor and Marshal Johnson.

Burford are having a jigger head made at a local foundry that will, when finished, be one of the largest of its kind ever made in this city. The jigger head is for the reception of moulds made for the manufacture of big ware, such as sloop lars and wash bowls.

The Union Planing Mill company sold a horse to Thomas Stevenson, of Cannon's Mill, Thursday. It got away somehow during the night and was found by Constable Bertele wandering around the streets at an early hour yesterday morning, and taken to a stable, where the owner called for it at noon.

Harry Allison, of the West End, who has been drilling for oil on land leased across the river near Middle run, has abandoned the project. After drilling for the past three months, a depth of 1,700 feet was reached, and although several times indications of the presence of oil were apparent, the well proved to be a failure. Allison invested a great deal of capital in this venture and will lose it all.

James Grimm, of the ferry boat, has a grievance to ventilate. Last Saturday night two young men who were skiff riding fell into the river and were thoroughly drenched. Boarding the ferry they changed their garments and were each given a pair of pants and a coat apiece by Grimm. The young men departed and promised to return the borrowed garments, but up to the present time they have failed to do so, and James' faith in humanity is consequently very much shaken.

PORTLAND, OR., May 2.—William P. Swepe, J. C. Dolan and Eugene M. Dement have been arrested here by United States treasury officials on a charge of conspiring to illegally land Chinese and issuing fraudulent certificates.

No Delegate From Alaska.

WASHINGTON, May 2.—The house again devoted the major portion of the session to debate on the bankruptcy bill. A bill to provide for a delegate in congress from the territory of Alaska was defeated.

LOCAL BREVITIES.

Today is big pay with the uptown potteries.

The paper counter for the circus, J. Weinberg, is in the city today.

Engineer George is making a few surveys on Calcutta road today.

Seven more workmen to be employed on the bridge arrived here last night.

Three drunken men on Franklin street last night made things merry for some time.

The city hall has been overhauled and thoroughly cleaned during the past few days.

King Harker is confined to his home near the power house with an attack of rheumatism.

James Walters has purchased a fast horse from Niles parties. The trotter has a record of 2:26.

Daniel Kelley had an upset on the Lisbon road Thursday afternoon, and was bruised up considerably.

Peter Conne is making preparations to remove to Leetonia. He will ship his household effects to that place next week.

The dredge boat has moved to the opposite side of the river, and has commenced operations for the last pier of the bridge.

The towboat John T. Risher passed down this morning, with the largest tow that has passed this point for some time.

Will Taylor and wife, accompanied by John McDonald, left yesterday afternoon for a short visit to Mt. Clemens, Mich.

The saloonists have caught the baseball fever, and will meet next Tuesday night to pick a team to play their Wellsville brethren.

The Bedford passed down last night with a good cargo of freight. The Lorena and Virginia are due down from Pittsburgh this evening.

J. Williamson, formerly engaged in the shoe business here, has embarked in the same business at Springfield. The family moved from Columbus to that city Monday.

Mrs. Thomas Collins, of Fifth street, who is undergoing treatment in a Pittsburgh hospital, is recovering rapidly, and expects to be well enough to return home some time next week.

John Kennedy ran into the telephone pole at the Hotel Grand last night while riding a bicycle. The machine was pretty generally used up, but John was not hurt beyond a few bruises.

Under the hoods of the street lamps sparrows build their nests, and as this is the period of hatching their young, almost every nest contains several eggs. The upper part of the lamps afford protection to the birds against wind and rain.

Street Commissioner Finley and his men have just finished the cleaning up of alleys and have again turned their attention to the improvement of the condition of the streets. The new commissioner evidently is a good man for the position.

The residents living near Kilston's crossing wish to call the attention of the sanitary police to the presence of a dead dog that has been lying close to the watering trough on the East End road. The stench arising from the carcass of the dead animal is almost unbearable.

The mayor has had a neat little secretary made that is divided off into pigeon hole apartments, as receptacles for legal documents, papers, etc. The secretary will be placed on the desk at city hall, and will be for the exclusive use of his honor and Marshal Johnson.

Burford's are having a jigger head made at a local foundry that will, when finished, be one of the largest of its kind ever made in this city. The jigger head is for the reception of moulds made for the manufacture of big ware, such as slop lars and wash bowls.

The Union Planing Mill company sold a horse to Thomas Stevenson, of Cannon's Mill, Thursday. It got away somehow during the night and was found by Constable Bertele wandering around the streets at an early hour yesterday morning, and taken to a stable, where the owner called for it at noon.

Harry Allison, of the West End, who has been drilling for oil on land leased across the river near Middle run, has abandoned the project. After drilling for the past three months, a depth of 1,700 feet was reached, and although several times indications of the presence of oil were apparent, the well proved to be a failure. Allison invested a great deal of capital in this venture and will lose it all.

James Grimm, of the ferry boat, has a grievance to ventilate. Last Saturday night two young men who were skiff riding fell into the river and were thoroughly drenched. Boarding the ferry they changed their garments and were each given a pair of pants and a coat apiece by Grimm. The young men departed and promised to return the borrowed garments, but up to the present time they have failed to do so, and James' faith in humanity is consequently very much shaken.

ROYAL BAKING POWDER CO., New York.

Persons who sympathize with the afflicted will rejoice with D. E. Carr, of 1,235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence has had another attack. "It came upon me again very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise it did both. I have used three 50 cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by A. H. Bulger, druggist.

The Festival.

The festival and concert given by the Young Men's Christian association baseball club at the Fifth street rink last night was well attended. The living checker game between ex-Champion Reed and Charles Price was well worth the price of admission alone, the game being won by Reed. The club swinging by the class was excellent and won many rounds of applause, while the tumbling was first class in every respect. The festival will be held again tonight and a large crowd will be present. Manley's band will furnish the music.

Cleveland Excursion.

Excursion tickets to Cleveland, account the General conference of the Methodist Episcopal church, will be sold via Pennsylvania lines April 29 and 30, and May 1 and 12. Tickets will be good returning five days from date of sale. The return limit may be extended until June 2 by depositing tickets with joint agent at Cleveland. For rates, time of trains and details, apply to nearest ticket agent of the Pennsylvania lines.

It May Save Your Life.

A New Case.

A case of diphtheria at the home of James Norris, West Market street, was reported this morning. The house has been quarantined.

IN a young girl's life there comes a time when the careless innocence of childhood changes to the most, blushing maidenly self-consciousness of approaching maturity. The eye is brighter; the form is rounder; there is a touch of shy coquetry in the glance—the girl has become a woman. She has entered that critical period so full of happy possibilities, yet so hedged about with the physical sufferings and dangers peculiar to her sex.

It has been said that to be a woman is to suffer. Too often this is true. A woman's whole nature is so bound up in the special functions of her womanhood that any disturbance of this sensitive organism throws the whole system out of harmony. "Female weakness" causes nine-tenths of all the wretchedness which women endure. It can never be permanently relieved by "local treatments." That is generally an expensive, embarrassing, useless, make-shift. What is needed is Dr. Pierce's Favorite Prescription to reach the innermost sources of the trouble and restore health and strength directly to the internal organs. This stops the weakening drains which sap life's foundation; heals all ulcerated conditions, gives the ligaments elastic power of themselves to correct misplacement of internal organs and imparts tone, vigor and vitality to the entire feminine organism.

In a word the "Favorite Prescription" makes healthy, happy women. Dr. Pierce is the Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. He has made a life-study of women's peculiar ailments. Over ninety pages of his great work, "The People's Common Sense Medical Adviser," are devoted to the consideration of diseases peculiar to women. Successful means of home-treatment are therein suggested, making it unnecessary to employ a physician, or to submit to his "examinations" and "sterilized," but generally useless, "local treatment." Twenty-one (21) one-cent stamps, to cover cost of mailing only, will bring a copy of this useful book. Address, World's Dispensary Medical Association, Buffalo, N. Y.

Chambers withdrew his motion, and the board adjourned sine die.

The new members were sworn in, and the board went into executive session and elected the following officers: Vice president, Kauffman; sanitary policeman, J. T. King; health officer, Doctor Ogden; clerk, Robert Bursner. The board then adjourned.

FIGHTING A COMMON ENEMY.

Dutch and English Have Combined Against the Matabele.

LONDON, May 2.—A dispatch from Capetown to The Daily Telegraph says: "The latest news from Matabeleland is very encouraging. The Dutch and English there are fighting side by side and the former are taking a leading part, owing to their knowledge of the native methods of warfare." This indicates that the former refusal of the burghers to join with the British, owing to the refusal of the latter to allow them to form a separate command under their own commandant, has been reconsidered and that the whites are all fighting together.

Matabele Waiting For Rhodes.

BULWYAYO, South Africa, May 2.—The scouts report that the Matabele force, which was defeated in the engagement on the north bank of the Umuzwa river, now occupies Kopjes to the east of Tabaanana, commanding the Salisbury road and awaiting Cecil Rhodes' column.

Weyler Muzzled the Press.

HAVANA, May 2.—El Pais, a daily, has been fined for an editorial which it is charged belittles the prestige of the army. La Discusion was fined also for having reproduced an article from The Diario De La Marina, which it was charged belittled the authorities. The Diario De La Marina was again fined for the publication of an unpatriotic editorial.

A Big Clothing Failure.

DETROIT, May 2.—The J. L. Hudson company, clothiers, has failed. The company has branch offices at Sandusky, St. Paul, Grand Rapids, St. Louis, Cleveland and Buffalo, but the three latter are not affected. Assets, \$1,271,840; liabilities, \$518,154.

The New Woman Again.

LONDON, May 2.—Princess Beatrice, youngest daughter of Queen Victoria and widow of Prince Henry of Battenberg, has been appointed governor of the Isle of Wight, the office previously held by her husband.

"THE TRIUMPH OF LOVE"

IS HAPPY, FRUITFUL MARRIAGE." Every Man Who Would Know the Grand Truths, the Plain Facts, the New Discoveries of Medical Science as Applied to Married Life, Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to Attain It."

"Here at last is information from a high medical source that most work wonders with this generation of men." The book fully describes a method by which to attain full vigor and manly power. A method by which to end all unnatural habits on the system.

To cure nervousness, lack of self-control, despondency, etc.
To exchange a faded and worn nature for one of brightness, buoyancy and power.
To cure forever effects of excesses, overwork, worry, etc.
To give full strength, development, and tone to every portion and organ of the body.
Age no barrier. Failure impossible. Two thousand references.
The book is purely medical and scientific, useless to curiosity seekers, invaluable to men only who need it.
A despairing man, who had applied to us, soon after wrote:
"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday, and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:
"If you dumped a cart load of gold at my feet it would not bring such gladness into my life as your method has done."
Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

Persons who sympathize with the

afflicted will rejoice with D. E. Carr,
of 1,235 Harrison street, Kansas City.
He is an old sufferer from inflamma-
tory rheumatism, but has not hereto-
fore been troubled in this climate.
Last winter he went up into
Wisconsin, and in consequence has
had another attack. "It came upon me
again very acute and severe," he
said. "My joints swelled and became
inflamed; sore to touch or almost to
look at. Upon the urgent request of
my mother-in-law I tried Chamber-
lain's Pain Balm to reduce the swelling
and ease the pain, and to my agreeable
surprise, it did both. I have used three
50 cent bottles and believe it to be the finest thing for
rheumatism, pains and swellings
extant. For sale by A. H. Bulger,
druggist.

The Festival.

The festival and concert given by
the Young Men's Christian association
baseball club at the Fifth street rink
last night was well attended. The
living checker game between ex-
Champion Reed and Charles Price was
well worth the price of admission
alone, the game being won by Reed.
The club swinging by the class was ex-
cellent and won many rounds of ap-
plause, while the tumbling was first
class in every respect. The festival
will be held again tonight and a large
crowd will be present. Mauley's band
will furnish the music.

Cleveland Excursion.

Excursion tickets to Cleveland, ac-
cording to the general conference of the
Methodist Episcopal church, will be
sold via Pennsylvania lines April 29
and 30, and May 1 and 12. Tickets
will be good returning five days from
date of sale. The return limit may be
extended until June 2 by depositing
tickets with joint agent at Cleveland.
For rates, time of trains and details,
apply to nearest ticket agent of the
Pennsylvania lines.

It May Save Your Life.

FIGHTING A COMMON ENEMY.

Dutch and English Have Combined
Against the Matabeles.

LONDON, May 2.—A dispatch from
Capetown to The Daily Telegraph says:
"The latest news from Matabeleland is
very encouraging. The Dutch and Eng-
lish there are fighting side by side and
the former are taking a leading part,
owing to their knowledge of the native
methods of warfare."
This indicates that the former refusal
of the burghers to join with the Brit-
ish, owing to the refusal of the latter to
allow them to form a separate command
under their own commandant, has been
reconsidered and that the whites are all
fighting together.

Matabeles Waiting For Rhodes.

BULUWAYO, South Africa, May 2.—

force, which was defeated in the en-
gagement on the north bank of the
Unguzwa river, now occupies Kopjes to
the east of Tabanbana, commanding
the Salisbury road and awaiting Cecil
Rhodes' column.

Weyler Muzzled the Press.

HAVANA, May 2.—El Pais, a daily,
has been fined for an editorial which it
is charged belittles the prestige of the
army. La Discusion was fined also for
having reproduced an article from The
Diario De La Marina, which it was
charged belittled the authorities. The
Diario De La Marina was again fined
for the publication of an unpatriotic
editorial.
